LUSH LANDSCAPES

Busch Gardens® has been named the world's "Most Beautiful Park" every year since 1990 by the National Amusement Park Historical Association (NAPHA). This outstanding accomplishment is due partly to the lush terrain of Virginia's native countryside, but also to the dedicated landscapers and grounds crew that beautify the park's 100 acres of gardens, walkways, and flowerbeds. More than 30,000 plants and flowers are grown in the park's 18,000 square feet of "behind-the-scenes" greenhouses and cold frame growing space. In addition, Busch Gardens is committed to environmental preservation. The park's greenhouse staff releases tens of thousands of beneficial bugs into the park each year as a natural form of pest management, while ground crews pull thousands of weeds by hand each season. In fact, landscape artists spend nearly six hours each day pruning, planting and weeding the adventure park.
