

SESAME PLACE

Accessibility Guide

Welcome to Sesame Place!

We're glad you're here! This guide provides an overview of services and facilities available for guests with disabilities who are visiting Sesame Place. We are committed to providing a safe and enjoyable environment to all guests. Please refer to the Welcome Center if you have any questions.

At Sesame Place we have two programs in place to assist guests with disabilities. Our Ride Accessibility Program (RAP) matches the individual abilities of our guests to the requirements of each ride. When enrolled in RAP, disabled guests will be able to participate in our Special Access Program to assist guests in enjoying attractions throughout the park as some queue lines are not accessible to mobility-impaired guests. These programs are described below.

Ride Accessibility Program (RAP): Is designed to allow guests to fully participate in the enjoyment of our park while keeping in mind the safety requirements of our rides and attractions. The Program was developed based on the requirements of the manufacturer and by evaluating the physical and mental attributes required to safely ride each ride. It is our policy to allow anyone to ride our rides and enjoy our attractions as long as they meet all these requirements and such that it does not present a potential hazard to the guest or to others.

Special Access: Is designed to allow our guests to enjoy our attractions without waiting in queue lines if the guest is not able to do so due to his/her disability.

Guests wishing to use Special Access must enroll in our Ride Accessibility Program at the Welcome Center.

NOTICE: The information in this guide is subject to change without notice. Please feel free to visit the Welcome Center for current information on accessibility and services. You may also contact a team member regarding accessibility prior to boarding a particular attraction.

The following procedures will be of assistance when utilizing our Ride Accessibility Program throughout the park:

1. Please enroll in our Ride Accessibility Program at our Welcome Center where you will receive a list of the rides and attractions and the requirements for riding and enjoying each attraction. Once you have enrolled in RAP you will be able to utilize our Special Access program.
2. If you have Special Access, for our Dry Rides Proceed to the ride exit of the respective attraction with your White Sheet , Bracelet, and Special Access Card and inform the ride operator you wish to ride. Please note that ride operators may not be able to speak with you until the ride has come to a complete stop. You may be asked to wait 1-2 ride cycles prior to boarding. You may use your Special Access Card for any 6 dry ride experiences. Special Access cards will not be reprinted.
3. At our tower water attractions a supervisor will be called to escort your party to the top of the attraction. You may choose 3 out of our 5 tower attractions to utilize

Special Access. The tower attractions available include Sky Splash, Slimey's Chutes, Sesame Streak, Slippery Slopes, and Bert & Ernie's Slip and Slide. The corresponding tab number will be surrendered upon boarding the attraction.

4. Only the number of guests listed on the RAP sheet (guest utilizing RAP and maximum of 3 additional) are able to board with the guest needing special access. Other party members should use the ride entrance.
5. The guest with the disability must ride in order for their party to take part in our Special Access program.

GENERAL PARK INFORMATION

Service Animals

Service animals are welcome at SeaWorld Parks & Entertainment facilities. Service animals are limited to dogs and miniature horses that have been individually trained to do work or perform task for the benefit of an individual with a disability.

Service animals must remain on a leash or harness and/or under the control of its handler at all times and be house broken. If at any time your service animal's behavior is out of control, you will be asked to remove your service animal from the premises.

Although assistance animals are discouraged from riding any ride, your assistance animal will be permitted on:

- Monster Mix Up
- Silly Sand Slides
- Sunny Day Carousel
- Mini Monster Club-house
- Flying Cookie Jars
- Elmo's Flyin' Fish
- Peek-A-Bug
- The Count Around
- Sesame Place's Furry Express

To experience a ride or attraction that does not permit service animals, the animal may be left with a non-rider. The guest attending the animal may then board the ride without waiting in line after the first guest assumes responsibility of the animal.

“Break” Area for Service Animals

For your convenience, a Service Animal “Relief Area” is located at our picnic area in our general parking lot.

Guest Relations

Guest Relations is located just before the turnstiles at our front entrance.

Guest Services

Guest Services is located at the Welcome Center at the front of the park.

Parking

Parking is available in front of the main entrance on a first come first service basis. Vehicles should display a disabled permit to the tollbooth employee.

Wheelchair Rental

Limited quantities of wheelchairs and electric convenience vehicles are available on a first-come, first-serve basis. Wheelchair rental is located adjacent to Finder’s Keepers, located just inside the main entrance, where both wheelchairs and ECV may be reserved. Please see a merchandise employee for details. Sesame Place encourages guests to bring their own wheelchairs.

All Sesame Place employees are trained to provide assistance to all our guests, which include helping a guest transferring to or from a wheelchair. However, they are not trained, and not permitted, to lift guests in and out of wheelchairs.

SESAME PLACE

Segway

SeaWorld Parks & Entertainment is committed to providing guests a safe and enjoyable experience. Because of different pathway configuration and terrain as well as large crowds that include small children and strollers, we regret that we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segway's. We are pleased to offer other forms of personal transportation, including electric convenience vehicles and standard wheelchairs. We encourage you to contact the Welcome Center with any questions.

Restrooms

All restrooms are accessible to guests using wheelchairs and are clearly marked with the disabled symbol throughout the park.

First Aid

Sesame Place First Aid station is located next to Cookie's Café. This office is staffed by Registered Nurses and Emergency Medical Technicians. Team members throughout the park will be happy to call for assistance upon request.

Restaurants

While dining at our restaurants, please be aware that most venues offer cafeteria-style service. An elevator is located in Cookie's Café and Elmo's Eatery for access to second level seating. Assistance is available upon request. For guests with special dietary needs, we offer a variety of allergy friendly options throughout our park. You may stop by the Welcome Center, or any of our meal facilities, to receive an Allergen Card with more detail on our Allergy Friendly program and offerings. We also suggest you visit meal facilities during non-peak hours or ahead of meal time so that you can be efficiently assisted and served.

Gift Shops

All gift shops are wheelchair accessible. Please ask any team member for assistance. 'Package Pick-up', available at all gift shops, provides guests the opportunity to shop throughout Sesame Place and have their purchases sent to Package Pickup, located at Locker and Stroller rental, for pick-up later in the day.

RIDE ACCESS INFORMATION

At Sesame Place safety is the only consideration that takes precedence over fun! Thrill rides, by their very nature, create forces and speeds that may not be acceptable or tolerable to some guests and may cause injury to some riders with known or unknown pre-existing conditions.

Many theme park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These systems may place restrictions on the ability of an individual to safely experience the ride. In general, you should ride only if you are in good health. Do not ride if you know or suspect you may be pregnant, have high blood pressure, heart, neck or back problems, motion sickness, recent surgery, or any other medical condition that may be affected by the features of the ride. You should not ride if you have any impairment or condition that would prevent the intended use of seating and safety restraints as provided or inability to follow any safety requirement.

In order to ride, guests must be able to maintain the proper riding position throughout the ride. (e.g. brace themselves upright in their seat, keeping their head upright and their back against the seatback, maintain postural control while seated in a tube or raft). Guests must be able to use the restraint device properly and be able to hold on tight and keep their hands, arms, legs, and

feet down and inside the attraction at all times. Guests must be able to demonstrate a willingness and ability to comply with verbal and written rider requirements. The rider requirements and health restrictions are listed at the entrance of each ride.

Guests with casts or braces will be restricted from riding certain rides where the cast or brace may present a hazard to the guest or others. Please consult with our Guest Services staff for more information or if in doubt about your ability to safely experience a ride.

Sesame Place team members can offer assistance steadying a guest transferring to or from a wheelchair. They may not lift or assist in lifting anyone using a wheelchair. All guests must be able to board a ride themselves or with help from a member of their party.

HEIGHT REQUIREMENTS

Height requirements are posted at each attraction. All guests, including those using wheelchairs, must meet the height requirement.

CASTS BRACES AND WALKING BOOTS

Guests with a full arm cast, certain types of forearm casts, full leg cast, braced arm cast, or braces between the legs may be restricted from riding certain rides and should refer to the Ride Information section of this guide for more information. Guests with walking boots and knee braces will be able to ride as long as the boot or brace fits comfortably in to the ride unit.

PROSTHETIC DEVICES AND AMPUTATIONS

Guests with any type of prosthesis should ensure it is properly secured before riding any ride and should

SESAME PLACE

refer to the Welcome Center to determine their specific ability to ride any ride.

GUESTS OF EXCEPTIONAL SIZE

In order to ride, all seatbelts, lap bars, and shoulder harnesses must be positioned and fastened properly. For water attractions, guests must be able to fit in tube and maintain proper riding position.

RIDE ESCORTS

Ride escorts may be required due to mechanical problems, weather conditions, or power interruption. If a ride escort is required, guests may need to negotiate stairs from the highest point of the ride and down steeply inclined catwalks or steps.

Guests requiring assistance during the ride escort may be escorted last in order to expedite the ride escort process. Only one mobility-impaired guest may ride the attraction at one time, unless they are in the same family. Please inquire about specific procedures prior to boarding a particular attraction.

OXYGEN TANKS

Due to the dynamics and certain characteristics of the rides, oxygen tanks are not permitted on any ride. Oxygen tanks are permitted in theatres, exhibits, and other enclosed facilities.

BEFORE EXPERIENCING AN ATTRACTION PLEASE NOTE ALL SAFETY WARNINGS BOTH VERBAL AND WRITTEN FOR EACH RIDE.

DEFINITIONS

Every ride entrance lists height requirements and special instructions regarding the ride. Sesame Place uses the

following terms:

Supervising Companion: A supervising companion is someone who physically and mentally meets all the requirements to ride the ride themselves, is 14 years of age or older.

Accompanied By: Whenever a guest needs accompaniment, the accompanying person must meet all the ride requirements, as well as assist the guest. This includes helping the guests in the boarding and exiting of the ride, assisting the guest in maintaining postural control while riding, and assisting the guest down stairs, catwalks, or ladders in case of a ride escort.

Hand-held Infant: For dry attractions a baby or toddler who is unable to take 3 unassisted steps to the ride or attraction independently and cannot maintain independent seated postural control.

For water attractions an infant is someone who is too small to properly fit into a US Coast Guard Type II or Type III Life Vests and cannot independently maintain proper riding position.

Functioning Extremity: A functioning extremity is a limb over which a person has control. A prosthetic device is considered a functioning extremity.

Ability to hold on or brace: Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the forces of the ride.

SESAME PLACE

Ridership Criteria

The ability for a disabled guest to ride certain rides or attractions is evaluated criteria which may include manufacturer's requirements and other safety considerations. Some of those may include the following:

Ability to maintain the proper riding position throughout the ride.

The guest must have the body and spinal control to maintain the proper riding position throughout the ride without the aid of other people or devices and be able to maintain the proper riding position even during bumping or other characteristic movements of the ride.

Weight distribution to allow the restraint device to function as designed.

The weight distribution of the guest's body must not interfere with any of the ride or attraction's safety and restraint devices as they were designed.

Control of upper torso – including head and neck.

The guest must have sufficient muscle control to support their head, neck and upper torso in the proper position during the ride or attraction's designed dynamic motions.

Ability to hold on with one functioning hand.

A functioning hand is an upper extremity or prosthesis with fingers that have the ability to grasp the restraint device and exhibits good grip control; the ability to brace and is strong enough to maintain the proper riding position throughout the duration of the ride.

Ability to hold on with two functioning hands.

Ability to hold on with two functioning hands as described above.

Ability to hold on with one functioning arm.

A functioning arm is an upper extremity or prosthesis that has the ability to arm-grip the restraint device by wrapping the arm around the restraint device and is strong enough to allow the guest to maintain the proper riding position throughout the duration of the ride.

Ability to hold on with two functioning arms.

Ability to hold on with two functioning arms as described above.

Ability to brace self with one functioning leg.

Guest must have one functioning leg, natural or prosthetic, for bracing their body during the course of the ride or attraction.

Ability to brace self with two functioning legs.

Guest must have two functioning legs, natural or prosthetic, to be used for bracing their body during the course of the ride or attraction and maintaining balance when entering and exiting a ride or attraction.

Minimum of two functioning extremities.

Guest must have a minimum of two functioning extremities, natural or prosthetic (two arms, two legs, or one arm and one leg), to brace themselves during the ride and assist in entering and exiting the ride or attraction.

Minimum of three functioning extremities.

Guest must have a minimum of three functioning extremities, natural or prosthetic (two legs and an arm or two arms and a leg) to allow the guest to brace in a tripod manner during the ride.

Ability to enter and exit the ride without endangering self or others.

Guest must be able to enter and exit the ride without jeopardizing themselves or others and to assist with their own evacuation, if necessary. This may include entering through an exit or having someone aid him or her in boarding. If a guest has to be lifted in and out of a ride unit, they must be accompanied by a supervising companion who is accustomed to doing this. For the safety of ride or attraction operators and the guest, our operators are instructed not to perform this function.

Appropriate Observed Conduct.

Guest must demonstrate appropriate observed conduct by indicating a willingness and ability to understand, participate in, and follow all rider requirements. Appropriate observed conduct may include but not be limited to, maintaining the proper riding position, attention to and compliance with safety instructions, proper use of restraints and safety equipment and a willingness to participate in the attraction.

In addition to the basic physical and mental requirements defined above, each ride is evaluated relative to specific temporary conditions which may prevent a guest from safely riding a particular ride. Some of the specific conditions evaluated include:

Cervical collar or neck brace, Broken collar bone, Full arm cast, Braced arm cast, Lower arm cast, Full leg cast, Lower leg cast, Bilateral abduction leg casts (brace between legs), the suitability of safely carrying hand-held infants on each ride.

INDIVIDUAL RIDE INFORMATION

The following descriptions are designed to give you information on the type of actions caused by various rides along with their unique physical restrictions. If you enrolled in the Ride Accessibility Program, follow the directions listed under each ride below.

Big Bird's Rambling River

A gentle inner tube ride through a winding river filled with surprises. Guests are assisted onto tubes located at two separate entrances.

Ride Access: Guests using a wheelchair may enter through the exit of the river ride. This area is located in front of the Sesame Seaport. A chair lift is provided for access into the pool. Guests are required to transfer from a wheelchair to the chair lift. Guests who are unable to wait in line may access the river through the exit of the ride after receiving permission from the guard.

Height Restrictions: Riders under 42" must be accompanied by a supervising companion. No hand-held infants.

Ride Restrictions: Riders must be in a tube or with a tube to enjoy the river. Proper swimwear is required.

For your safety, you should ride only if you are in good health. Guests who have neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

SESAME PLACE

Physical Restrictions: Guests must be able to sit upright and maintain the proper riding position throughout the ride and have control of the upper torso including the neck and head. Guests must also be able to or have a companion to assist with the following: enter/exit the ride without endangering self or others and have sufficient awareness to understand the consequences of actions that may lead to injury to self or others. Guests with broken collar bones/dislocated shoulders, braced arm casts, leg casts, or neck/back braces must not ride.

Assistance Animals: Not permitted

Blast-Off

This “rocket ship” reaches a height of approximately 40 feet before bouncing back to Earth.

Ride Access: Guests restricted by a wheelchair may enter the line through a wheelchair accessible gate located at the entrance. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests must be 42” tall, or accompanied by a supervising companion. Hand-held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart

conditions, neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must be able to grip with one functioning hand and brace with one functioning leg or grip with two functioning hands to ride. Guests with a double leg amputation above the knee must not ride unless a well-secured prosthetic is in place. Those wearing full arm casts or neck braces must not ride.

Assistance Animals: Not permitted

Captain Cookie's High C's Adventure

Ahoy Monsters! Set sail on a high seas adventure with Captain Cookie. Enjoy the rolling waves of the ocean with the speed of the wind.

Ride Access: Guests restricted by a wheelchair may enter the line through a wheelchair accessible gate located at the entrance. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests must be 48" tall, or accompanied by a supervising companion. Hand-held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or any other

SESAME PLACE

impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must be able to grip with one functioning hand and brace with one functioning leg or grip with two functioning hands to ride. Guests with a double leg amputation above the knee must not ride unless a well-secured prosthetic is in place. Those wearing full arm casts or neck braces must not ride.

Assistance Animals: Not permitted

The Castle Swing*

Swing high and reach for the sky on The Count's new double-sided Castle Swing.

*Open seasonally

Ride Access: Guests restricted by a wheelchair may enter the line through the exit. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests must be 36" tall, or accompanied by a supervising companion. Hand-held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that they may be pregnant, have high blood pressure, heart condi-

tions, neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must have one functioning hand and one functioning leg, or two functioning hands are sufficient instead of one functioning hand and one functioning leg if the guest has a normal center of gravity and the lower extremities are sufficiently strong enough to maintain proper riding. Guests with a double leg amputation above the knee must not ride unless a well-secured prosthetic is in place. Those wearing neck braces must not ride.

Assistance Animals: Not permitted

The Count Around*

Take a seat and get ready to count your way around and around in six colorful hot air balloons.

*Open seasonally

Ride Access: Guests restricted by a wheelchair may enter the line through the exit. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests must be 48" tall, or accompanied by a supervising companion. Hand-held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or any other impairment or

medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must have one functioning hand and one functioning leg, or be accompanied by a Supervising Companion, to ride.

Assistance Animals: Permitted

The Count's Fly By

Laugh out loud as you fly high in these playful, Count-inspired planes.

*Open seasonally

Ride Access: Guests restricted by a wheelchair may enter the line through the exit. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests must be 42" tall, or accompanied by a supervising companion. Hand-held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the nor-

mal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must have one functioning hand and one functioning leg to ride. Guests with a double leg amputation above the knee must not ride unless a well-secured prosthetic is in place. Those wearing full arm casts or neck braces must not ride.

Assistance Animals: Not permitted

Elmo's Cloud Chaser

An aerial rotational swing ride.

Ride Access: Guests restricted by a wheelchair may enter the line through a wheelchair accessible gate located at the entrance. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests must be 36" tall to ride. Seatbelts are recommended for all children and are required for riders between 36" to 42" . Riders between 36" and 42" must ride with a supervising companion (at least 14 years old). To ride alone, riders must be 42" tall. No hand-held infants.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that they may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

SESAME PLACE

Physical Restriction: Guests must be able to grip with one functioning hand to ride. Guests with any type of prosthetic device should ensure it is properly secured and will remain in place despite the forces of the ride.

Assistance Animals: Not permitted

Ernie's Water Works

This interactive play structure allows children, 7 years and younger, to control water flow from many pipes, buckets and showers as Ernie relaxes in his bathtub.

Ride Access: Guests using a wheelchair may enter through the front of the attraction.

Height Restrictions: Only children 7 years and younger and supervising companions may enter Ernie's Waterworks.

Ride Restrictions: None

Physical Restrictions: None

Assistance Animals: Not permitted

Flying Cookie Jars

Spin around in a giant cookie jar 40 feet above the ground for a monster's eye view of the park. Soar high into the sky while visions of cookies dance in your head. Nom, nom, nom.

Ride Access: Guests restricted by a wheelchair may enter the line through a wheelchair accessible gate located at the entrance. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests under 42" tall must be accompanied by a supervising companion (at least 14 years old) to ride. Hand-held infants are not permitted to ride.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must be able to grip with one functioning hand to ride. Guests with any type of prosthetic device should ensure it is properly secured and will remain in place despite the forces of the ride.

Assistance Animals: Permitted

SESAME PLACE

Flyin' Fish

An aerial spinning ride consisting of fourteen Flyin' Fish vehicles. Riders may raise and lower their fish with the push of a button.

Ride Access: Guests restricted by a wheelchair may enter the line through a wheelchair accessible gate located at the entrance. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests must be at least 48" tall or accompanied by a supervising companion. Hand held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must be able to grip with one functioning hand and brace with one functioning leg or grip with two functioning hands to ride. Guests with a double leg amputation above the knee must not ride unless a well-secured prosthetic device is in place. Those wearing full arm casts or neck braces must not ride.

Assistance Animals: Permitted

Honker Dinger Derby

Cruise up and down and all around on the Honker Dinger Derby! Experience the twists and turns in a colorful derby cars on this exciting ride!

Ride Access: Guests restricted by a wheelchair may enter the line through a wheelchair accessible gate located at the entrance. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests must be at least 42" tall to ride. Guests between 42" and 48" must ride with a supervising companion. Hand held infants are not permitted.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must be able to grip with one functioning hand and brace with one functioning leg or grip with two functioning hands to ride. Guests with a double leg amputation above the knee must not ride unless a well-secured prosthetic device is in place. Those wearing full arm casts or neck braces must not ride.

Assistance Animals: Not permitted

Mini Monster Clubhouse

A soft play area designed for kids 5 and under. Mini monsters can jump, climb, crawl and play their way through this colorful toddler play area.

Ride access: Guests in wheelchair may access through the entrance gate located by Oscar's Rotten Rusty Rockets.

Height Restrictions: No height restriction, Recommended for kids 5 and under.

Physical Restrictions: None

Assistance Animals: Permitted

Monster Clubhouse

3-story colorful net climb. Kids and parents alike will have a monster of a good time playing together on this fun filled structure.

Ride Access: There are multiple entrance/exit locations. Each location requires guests using wheelchairs to transfer out of the wheelchair and climb.

Height Restrictions: No height restriction, Recommended for all ages.

Ride Restrictions: For your safety, you should ride only if you are in good health. Guests who know or suspect

that may be pregnant, have high blood pressure, heart conditions, neck or back problems, recent surgery, or any other impairment or medical condition that may be affected by the features of this ride or prevent the normal seating or use of the safety restraints as provided, shall not ride.

Physical Restrictions: Guests must be able to climb stairs and nets. The ability to climb nets will require guests to walk on uneven surfaces that are subject to swaying and other random movements. Guests who are unable to sit or stand upright independently must be accompanied by a companion. Guests with a cervical collar, neck brace, broken collarbone, braced arm cast, full arm cast, and full leg cast or brace between legs will not be permitted to participate. All other casts must fit in the attraction.

Assistance Animals: Not permitted

Monster Mix Up

Get up, get down and go around and around with everyone's favorite furry monsters! Move and groove as you spin across the dance floor on this family favorite tea cup ride.

Ride Access: Guests restricted by a wheelchair may enter the line through a wheelchair accessible gate located at the entrance. For guests unable to wait in line, access through the exit gate is permitted after receiving permission from the ride operator.

Height Restrictions: Guests under 42" tall must be accompanied by a supervising companion (at least 14 years old) to ride. Hand-held infants are not permitted to ride.

SESAME PLACE

Ride Restrictions: For your safety, you should ride only if you are in good health. Attraction and Show Access

Information

All theaters have seating for guests with disabilities. An Entertainment employee is located at the entrance to the theater and can provide any necessary assistance.

For your convenience, guests that are using a stroller as a wheelchair, you may visit the Welcome Center to obtain a tag to clearly mark your stroller. This will assist our team in identifying the use of your stroller to be allowed into theaters.

Elmo the Musical—Live at Sesame Place!

Imagination, math, and music add up in *Elmo the Musical—Live at Sesame Place!* Join Elmo as it's time to raise the curtain and light the lights, when this brand-new show takes over the Sesame Studio at Sesame Place!

Restrictions: None.

Special Accessibility Entrance: We ask that guests with disabilities arrive to the theater 20 minutes prior to show time. Access to the upper level can be gained by use of the ramp located behind Flying Cookie Jars. Seating for guests with disabilities is limited and available on a

first come basis. Theater hosts are located throughout the theater to assist.

The Magic of Art

Located in Sesame Place Neighborhood Theater. Abby Cadabby is preparing for Sesame Street's big Art Show, but isn't quite sure what to create. With help from her friends Elmo, Cookie Monster, Grover and Telly she learns that art comes in all shapes and sizes! From paintings to stories and even sculptures, Abby's friends inspire her to use her imagination to create her own magical masterpiece. That's when Abby learns that the magic of Art is in your heart!

Restrictions: None.

Special Accessibility Entrance: We ask that guests with disabilities arrive to the theater 20 minutes prior to show time. Guests with disabilities should enter through VIP entrance located by Trader Bert's. Seating for guests with disabilities is limited and available on a first come basis.
