### K-1st Camp Do You See What I Sea?

Peek-a-boo, I see you! Use all five of your senses to uncover what we have in common with ocean animals. Can you see as well as a dolphin? Can you smell as well as a shark? Do you love the taste of plants as much as a manatee? You won't believe your eyes, ears, mouth, hands and nose after you've discovered how similar (or different) we are to the animals around us.

### K-1st Camp Secrets of the Sea

Pssst! Wanna know a secret? The animals in the sea are hiding tons of them! How is a walrus like a penguin? What makes sharks and dolphins different? What do you have in common with a killer whale? Play detective as you reveal a new secret each day and discover what similarities ocean animals share and what makes them different. You might just uncover some of the greatest ocean mysteries.

### K-1st Camp Sea Hideaway

Tag! You're it. For the animals in the sea, it's more than just a game of hide and seek. Search for all sorts of sneaky creatures as you discover how giant killer whales camouflage in the open ocean, why stingrays have flat bodies and where leafy sea dragons get their unique name. You'll be amazed to learn the many ways and reasons why ocean animals hide; you might even find some surprises along the way!

## 2nd-3rd Camp **Animal Addresses**

Grab your passport and get ready to jet! We're off to meet some of the most fascinating animals in the world, right in their own backyards. Your new animal friends will welcome you to the neighborhood—whether it's an icy glacier, sunny shoreline or deep ocean. Be sure to showcase your model citizenship by learning how to help keep these critter communities safe and healthy.

## 2nd-3rd Camp **What's For Lunch?**

You'll work up an appetite for fun during this venture into the smörgåsbord of the sea. Cook up some good times as you learn how and where animals find their food and serve tasty treats to some of our favorite animal friends. The menu varies depending on the species, so make sure you remember what dishes carnivores, herbivores and omnivores love best. Order up!

## **Grades 2-3**

### **Summer Day Camps**

Offered weekly June 13-August 12

**Choose from:** What's for Lunch?, Animal Addresses or Ocean Odyssey

3-5 p.m. for \$75  
per camper  
per week

## 2nd-3rd Camp **Ocean Odyssey**

Do you fly south for the winter? Take a voyage alongside migrating species of animals as you distinguish between creatures that travel to find warmer waters, follow their food, or make nests along the beach. Journey from temperate Florida waters to frigid polar habitats to understand why ocean animals are often on the move.

- Select rides in accordance with height restrictions
- Lunch and snack each day
- Secure camper drop-off and pick-up system
- Complimentary t-shirt and water bottle

#### 4th-5th Camp

### Walk on the Wild Side

Take a trek through some of the world's most diverse habitats to discover how different species of animals are perfectly adapted to fit in. You'll journey through land and sea on your way to both poles and all the way back to Florida to experience the range of environments that different species call home. Whether you prefer snow or sunshine, you're sure to get along with animals (and new friends) from all over the globe!

**After Camp Care:**  
Available from 3-5 p.m. for \$75 per camper per week

#### 4th-5th Camp

### Feeding Frenzy

Take a peek inside our kitchen and help us serve up some of the 4,000 pounds of food our SeaWorld animals go through each day. Learn how our keepers stock our refrigerators with tons of yummy entrees for over 41,000 animals and what your favorite animals love to eat most.

#### 4th-5th Camp

### Animal Antics

Have you ever wondered how SeaWorld® trainers teach dolphins to leap high into the sky or how we weigh our killer whales? Come along and learn all about animal behavior and training from the experts. You'll see our animal shows in a whole new light after meeting our trainers and hearing about the deep connections they have with the animals in their care. You may even pick up some tips on how your cat or dog can learn from you at home!

## 6th-8th Camp

### Marine Biology 101

Get ready to dive fins first into the world of marine biology. Study dolphin behavior, penguin diets and sea turtle migration, all while learning from the experts. Discover why scientists and researchers work alongside zoos and aquariums to share invaluable information about how we impact nature. You'll make your mark by conducting hands-on experiments and interacting with some of your favorite animals.

## 6th-8th Camp

### Animal Sciences

Science is all about test tubes and microscopes, right? Think again! Here at SeaWorld®, we use a variety of sciences—including biology, psychology, chemistry and more—to study and care for our animals. Our habitats, shows and behind-the-scenes areas become your laboratory as you learn how environmental and behavioral factors impact different groups of animals and people. No text books or beakers required!

## 6th-8th Camp

### Wild Careers

Are you on the prowl for an exciting career working with animals? Whether you're interested in training dolphins or caring for sharks, you're sure to find your calling amongst the seven zoological departments here at SeaWorld®. Meet the specialists behind our animal training and rescue programs and become a keeper by recording observations and information about a variety of animals. You'll be ready to open your own zoo after designing model habitats that reflect your passion for conservation and wildlife.

7th-9th

## Career Camp

Imagine swimming with dolphins, snorkeling with sharks and wading with stingrays. For our zoological departments here at SeaWorld, it's all in a day's work. At Career Camp you'll work alongside our experienced staff to learn more about the amazing careers available for animal lovers. Practice your dream job by interacting with beluga whales and going backstage at one of our exciting animal shows. You'll even spend two nights sleeping alongside some of your favorite animals.

10th-12th

## Career Camp

Have you always dreamed of working with animals at SeaWorld? Now's your chance to gain firsthand experience with a range of zoological professionals. You'll have exclusive insight into the industry after hearing from our veterinary team and animal trainers about their conservation efforts and career development. Spend a day in the life of our staff by walking through the snow with penguins, taking a mock swim test in the same pool as our prospective trainers and preparing educational presentations to share with park guests. This will be a summer you'll never forget as you discover your calling for wildlife!
